Smart Cabinet locks

After years of research and development, Be-Tech cabinet locks supply many practical solutions for staff locker, office locker, SPA locker and iron cabinet. Through a combination of cabinet locks, Be-Tech hotel locking management system will achieve the "one key solution" goal.

Features

A、Apply to iron cabinets and wooden cabinets.
B、iB and code are used as key card.
C、Incorrect code alarm.
D、Low voltage alarm.
E、External power backup.

Parameter

○Power supply: 2×AAA batteries

○Thickness of door: 0.6mm~25mm

C1515D

Features

A、Apply to iron cabinets and wooden cabinets.
B、Incorrect code alarm.
C、Low voltage alarm.
D、External power backup.

Parameter

○Power supply: 2×AAA batteries

○Thickness of door: 0.6~3mm/13~22mm

C1215KL

C1100M-12GX

Features

>3-level management makes mange simply.
>Twin card cheak for optional.
>Low voltage alarm.
>External power backup.

Parameter

○Power supply: 4×AA batteries
○Thickness of door: 13mm~22mm
○Length of bolt: 12mm

6100M-12GX

Features

>3-level management makes mange simply.
>Split-type cabinet lock, apply to 30~50mm special thickness door.
>Twin card cheak for optional.
>Low voltage alarm.
>External power backup.

Parameter

○Power supply: 4×AA batteries
○Thickness of door: 16mm~50mm
○Length of bolt: 12mm

C0900BE-12GX

Features

>3-level management makes mange simply.
>iB+keypad combination design.
>Twin card cheak for optional.
>Low voltage alarm.
>External power backup.

Parameter

○Power supply: 4×AA batteries
○Thickness of door: 13mm~22mm
○Length of bolt: 12mm
