

The world's favorite lock

Digital Mortise Lock YDM 3109

YDM3109

Front Body

27(D)X68.6(W)X306.6(H) mm

Back Body

37(D)X72.8(W)X306.6(H) mm

Various access

Yale YDM3109 has Four access solutions, PIN code, Proximity card key, mechanical key and Remote Control (optional) for your convenience.

Invisible keypad

Keypad can be seen only when you touch the screen with your palm.

Scramble Code

You can add meaningless number prior to or after the right code when there is a chance of exposing it to others.

Smart Touchpad

To prevent the password from being exposed due to residual fingerprints after opening the door, a new technology has been adopted to complete the door opening process by touching the keypad with a palm after entering the password.

Missing key invalidation

Once you lose your key, it has no validation as long as you re-register rest of your keys.

Automatic locking

The Yale Digital Door Lock series automatically locks the door after checking it is properly closed. (Manual operation is also available.)

Anti-panic egress with Safe handle

For convenience and in case of emergency, the door is automatically unlocked whenever the inner lever handle is used and also safe handle will protect from any illegal attempts.

Alarm (break / damage)

80db alarm goes off if anyone attempts to damage the lock or force the door open.
