

The world's favorite lock

Digital Rim Lock YDR1211

YDR1211

Front Body

14(D)x63(W)x152(H)mm

Back Body

47(D)x90(W)x170(H)mm

Various access

Yale YDR1211 has three access solutions, PIN code, Mechanical key and Remote Control (optional) for your convenience.

Invisible keypad

Keypad can be seen only when you touch the screen with your palm.

Operation status notification

Whenever any operation is made, the keypad informs you what has happened through different alignment of the numbers.

T-bolt locking Mechanism

Jimmy proofing T-shaped dead-bolt.

Automatic locking

The Yale series automatically locks the door after checking it is properly closed. (Manual operation is also available.)

Alarm (break / damage / fire)

80db alarm goes off if anyone attempts to damage the lock or force the door open, or if the lock detects over 60°C.

Low battery and emergency power supply terminal

It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply emergency power to the lock with the standard 9V battery

Smart Touchpad

To prevent the password from being exposed due to residual fingerprints after opening the door, a new technology has been adopted to complete the door opening process by touching the keypad with a palm after entering the password.
